

Hammerglass Add-On Premium

Hammerglass Add-On Premium is primarily installed as an exterior protection of existing glazing. Add-On Premium has an aesthetically pleasing design with a completely hidden attachment. For the property owners who value appearance, this is an excellent choice.

Hammerglass Add-On is a complete integrated system of effective burglar protection designed for external or internal installation over existing windows. Add-On Premium is fitted externally on both fixed and openable windows as well as to glass- and door sections as protection against burglars and vandals. It can also be fitted internally as burglar/personal protection.

Add-On Premium comes in white or natural anodised as standard (see specifications below). Optional RAL/NCS colours available at extra cost.

Applications

Shops, shopping malls, public/private properties, industrial buildings, office blocks, petrol stations, pharmacies or any other vulnerable buildings. Provides the perfect solution for protection against vandalism and break-ins.

Product description

Hammerglass Add-On Premium for outer protective glazing. Glazing material is 6, 8, 10 or 12 mm Hammerglass. The unique profile is produced in durable aluminium, and the Hammerglass-screen is glued into the Premium profile together with a sealing strip.

Hammerglass offers a unique nano-technology coating, resistant to chemicals and most acid attacks. This means graffiti and other dirt can be removed with graffiti remover and other cleaning products.

Hammerglass does not contribute to the spreading of flames in a possible fire.

Security Class and certificates

Hammerglass Single is approved according to EN 356 in the security classes up to P8B. Hammerglass is also certified according to British Police standards "Secured by Design".

Technical specifications

Product specification guidance

Hammerglass Add-On Premium protects against vandalism and burglaries. The installation has no damaging effect on existing architecture. The system protects and strengthens existing wooden frames, which minimizes the maintenance costs. Hammerglass Add-On Premium reduces noise with up to 30 dBRw. The system also provides energy savings and improvements in the U-value.

Contact Hammerglass for DWG-files.

Laser marking

All Hammerglass panes are laser-marked with a logo and production number for traceability for the purposes of internal quality assurance and security in the event of warranty issues.

Warranty

10 years according to specified conditions.

Installing

Installed only by approved installers in order to guarantee the highest quality.
